

Unlocked the hidden potential of Client's data with SAP BW/4HANA to support quick and effective decision making.

Unlocked the hidden potential of Client's data with SAP BW/4HANA to support quick and effective decision making.

Industry: Textiles, Chemical

Location: USA

Employees: 8,000+

Revenue Range: \$4 billion

About the Client

The client is a business conglomerate that manufactures specialty chemicals with multiple manufacturing plants and sales offices across the globe.

Background

A top manufacturing conglomerate was looking to onboard an expert technology partner for a 3 years engagement to modernize their SAP landscape leveraging HANA technology including S/4HANA, BW/4HANA, and SAP Analytics cloud. BW/4HANA deployment was planned in the first phase of this project.

Engagement is not limited to deploying new enterprise data warehouse and enterprise BI tool, but also to establish a CoE that will have the people, process, and tools to deploy across all future phases.

Solution

- Microexcel will provide BI advisory & core strategy assistance, delivering a comprehensive set of "patterns and practices" to enable their new enterprise standard for business intelligence, in addition strategically plan their subsequent phases over the next 3 years.
- Define EDW strategy which includes modeling, data movement, security, reporting, dashboarding, operational reporting and analytics on new platform
- Simplified strategy to incorporate future BI capabilities in support of S/4HANA deployment, or enabling Big Data, Hadoop, Predictive capabilities with DW and BI foundation

Benefits

- Best practices for deployment and development in SAP BW/4HANA and SAP
- Analytics Cloud leveraging HANA platform
- Improved user experience along with patterns and practices with information
- management standards to the client for next 10 years
- Know how to effectively plan BW/4HANA deployment with foundational knowledge
- to plan for S/4HANA migration
- Defined standards for operation reporting and analytics in a hybrid model for
- S/4HANA and BW/4HANA
